

HJE®

All-Season

ALL PURPOSE

Fertilizer

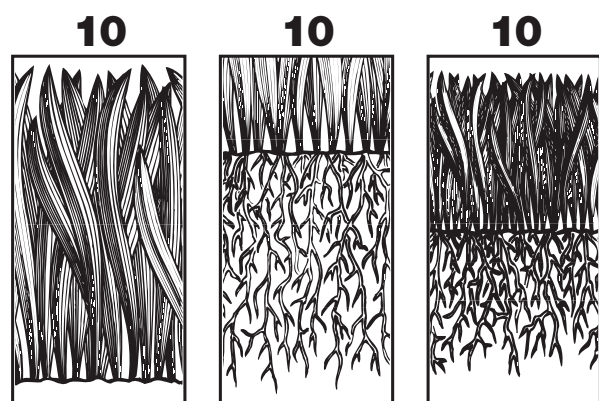

For flowers,
trees, shrubs, and
vegetable gardens.

10-10-10

Covers Up To 5,000 Sq. Ft.
Net Weight: 35 lbs. (15.90 kg)

KEEP OUT OF REACH OF CHILDREN
CAUTION: May cause irritation. On contact
with skin or eyes, flush with plenty of water.

NITROGEN
For a lush green lawn

PHOSPHATE
Improves root growth

POTASH
Vital for growth & drought resistance

Guaranteed Analysis

Total Nitrogen (N)	10.00%
3.90% Ammoniacal Nitrogen	
6.10% Urea Nitrogen	
Available Phosphate (P ₂ O ₅)	10.00%
Soluble Potash (K ₂ O)	10.00%
Derived From: Diammonium Phosphate, Muriate of Potash, Urea.	

F315

DIRECTIONS FOR USE:

FLOWERS AND VEGETABLES:

Spread fertilizer evenly on the bed surface and work into the top 2 to 4 inches of soil surface before planting. For vigorous growth, repeat applications every 6 weeks during the growing season, working into the soil surface along rows or around plants. Do not allow fertilizer to contact stems or leaves.

SHRUBS, HEDGES AND ORNAMENTALS:

Apply in the late spring and early fall. Where rapid growth is desired, or in areas where the growing season is extended, a third application is recommended in mid-summer. Scatter the fertilizer evenly on the soil surface under the outer spread of branches, inward to a point 1 foot from trunk of plant. Scratch fertilizer lightly into the soil surface and water well. Do not allow fertilizer to contact stems or leaves. Use half rate for young plants less than one year old.

FRUIT AND NUT TREES:

Apply fertilizer 3 times a year - once in the spring before new growth appears, early summer, and again in the fall after fruit and nuts have been harvested. Fertilizer should only be applied under the drip line of established trees and watered thoroughly.

SHADE TREES:

Fertilize your trees 2 to 4 weeks before they break bud in spring. A second application is desired 6 to 8 weeks once the trees have reached peak spring growth. Fertilize again in 6 to 8 weeks. Feed again in late fall, about the time of the average first frost date. Established trees can be fed by using an auger to drill holes in a circle just inside the drip line 24 inches apart and approximately 12 inches deep. Surface feeding near drip line is recommended for younger trees. Water your trees slowly and deeply. Use half rate for young plants less than one year old.

WATERING SUGGESTIONS:

Since fertilizer left on the foliage will cause leaf burn, fertilizer spills should be picked up and spread out, then water well to lower the concentration in the area of the spill. A thorough soaking is preferred to a light shallow watering. This encourages deep rooting and will resist heat and drought stress. Surface drying helps to reduce fungus diseases which thrive in high moisture and temperature conditions. Early morning watering is recommended.

Information regarding the contents and levels of metals in this product is available on the internet at <http://www.aapfco.org/metals.htm>

FERTILIZATION RATES FOR FLOWERS / VEGETABLES

ANALYSIS	AMOUNT (PER 100 SQ. FT.)
8-8-8	1 - 2 lbs
10-10-10	1 - 1.5 lbs
12-12-12	1 - 1.5 lbs
13-13-13	1 - 1.5 lbs
16-16-16	1 - 1.5 lbs
34-00-00	0.5 - 0.75 lbs

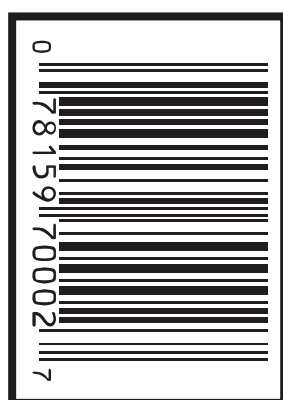

SUGGESTED FERTILIZER RATES FOR TREES AND SHRUBS

SIZE OF MATURE TREE / SHRUB	AMOUNT
1/2" Diameter	1/4 lb (1/2 Cup)
1" Diameter	1/2 lb (1 Cup)
2" Diameter	3/4 lb (1 1/2 Cups)
3" Diameter	1 1/2 lbs (3 Cups)
4" Diameter	2 lbs (4 Cups)
5" Diameter	2 1/2 lbs (5 Cups)
6" Diameter	3 lbs (6 Cups)
7" Diameter and Over	1 lb (2 Cups) per inch of Diameter

Measure diameter of tree 3 - 4 feet above ground. Do not apply more than 15 pounds of fertilizer to any one tree or shrub. Use half rate for young plants less than one year old.

NOTE: We recommend that you keep this product (and all fertilizers) out of the reach of children. Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your garden, and sweep any product that lands in the driveway, sidewalk, and street, back onto your garden immediately as the composition of certain fertilizer elements can cause permanent stains. Also avoid contact with swimming pools and stucco siding.

Manufacturer warrants that this product conforms to the ingredient statement on the label, and that the product is reasonably suited for the labeled use when applied according to directions. Buyer and user assumes all risks and liability of use, storage and/or handling of this product not in accordance with the terms of this label. Manufacturer makes no other warranty, express or implied, and shall not be liable for indirect or consequential damages.

KEEP OUT OF REACH OF CHILDREN

CAUTION: Fertilizer may cause skin or eye irritation. Flush contacted area with plenty of water, and get medical attention if irritation persists. If swallowed, call a doctor for treatment advice.
