Safety Data Sheet

Howard Johnson's Enterprises

Section 1: Identification

Product identifier Howard Johnson's All Season All Purpose Fertilizer 12-12-12

Product Name

■ FertCa;

Product Code

1 Variable colored granules.

Relevant identified uses of the substance or mixture and uses advised against

Recommended use

Product Description

■ Fertilizerforlawns.

Restrictions on use

■ Keep out of reach of children and domestic animals. Avoid breathing dust. Avoid

contact with eyes, skin and clothing.

Details of the supplier of the safety data sheet

Manufacturer

Howard Johnson's Enterprises, Inc.

9675 S. 60th Street Franklin, WI 53132 United States www.hjefertilizer.com

Telephone (General) [(414) 394-3590-8:30am-5:00pm CST

Emergency telephone number

Manufacturer | 1-800-424-9300 - CHEMTREC - Transportation and Non-Transportation related

emergencies

Manufacturer 1-703-527-3887 - CHEMTREC - Outside North America - Collect Calls Accepted

Section 2: Hazard Identification

United States (US)

According to: OSHA 29 CFR 1910.1200 HCS

Classification of the substance or mixture

OSHA HCS 2012 | Carcinogenicity 1A

Label elements
OSHA HCS 2012

Format: GHS Language: English (US)
OSHA HCS 2012

DANGER

Hazard statements | May cause cancer.

Precautionary statements

Prevention | Obtain special instructions before use.

Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection.

Response | IF exposed or concerned: Get medical advice/attention.

Storage/Disposal, Dispose of content and/or container in accordance with local, regional, national, and/or

international regulations.

Store locked up.

Other hazards

OSHA HCS 2012 Under United States Regulations (29 CFR 1910.1200 - Hazard Communication

Standard), this product is considered hazardous.

Section 3 - Composition/Information on Ingredients

Substances

Material does not meet the criteria of a substance according to United Nations Globally Harmonized System of Classification and Labeling of Chemicals (GHS)

Mixtures

Skin

Eye

Ingestion

| Composition | | |
|------------------------------|----------------|--------|
| Chemical Name | Identifiers | % |
| Limestone | CAS:1317-65-3 | > 10% |
| Silica, crystalline - quartz | CAS:14808-60-7 | > 0.1% |
| Fertilizer ingredients | NDA | > 89% |

Section 4: First-Aid Measures

Description of first aid measures

Inhalation

IF INHALED: If breathing is difficult, remove person to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms occur.

IF ON SKIN: Wash skin with soap and water. If irritation develops and persists, get medical attention.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First aid is not expected to be necessary if material is used under ordinary conditions and as recommended.

Most important symptoms and effects, both acute and delayed

May cause cancer. Refer to Section 11 - Toxicological Information.

Preparation Date: 13/August/2015 Format: GHS Language: English (US) Revision Date: 13/August/2015 OSHA HCS 2012 Page 2 of 7

Indication of any immediate medical attention and special treatment needed

Notes to Physician | Treat symptomatically and supportively.

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media | SMALL FIRES: Dry chemical, CO2, water spray or regular foam.

LARGE FIRE: Water spray, fog or regular foam.

Unsuitable Extinguishing

Media

Avoidheavyhosestreams.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion

Hazards

Noneknown.

Hazardous Combustion

Products

Non-combustible, substance itself does not burn but may decompose upon heating to produce corrosive and/or toxic fumes.

Advice for firefighters

1 Wear positive pressure self-contained breathing apparatus (SCBA).

Section 6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions

Avoid contact with skin, eyes, and clothing. Wear appropriate personal protective equipment, avoid direct contact. Ventilate enclosed areas. Avoid dust formation and breathing dust.

Emergency Procedures

No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended.

Environmental precautions

No data available

Methods and material for containment and cleaning up

Containment/Clean-up Measures

■ Sweep or scoop up spills, dispose of any unusable material in approved landfill. Use appropriate Personal Protective Equipment (PPE).

Section 7 - Handling and Storage

Precautions for safe handling

Handling

Avoid contact with skin, eyes, and clothing. Avoid breathing dust. To minimize dust generation and accumulation, spills should be cleaned up and dust accumulations should be removed promptly. Wash thoroughly with soap and water after handling.

Conditions for safe storage, including any incompatibilities

Storage

■ Store in a cool/low-temperature, well-ventilated, dry place. Keep out of reach of children. Keep container tightly closed. Avoid humid, wet or moist conditions. Keep away from incompatible materials such as reducing agents. Do not blend or store in contact with ammonium nitrate. Ventilate enclosed areas. Store locked up.

Incompatible Materials or Ignition Sources ■ May be corrosive to mild steel. slightly corrosive to aluminum, zinc, or copper and non-corrosive to glass, 304 or 316 stainless steel. May be reactive with halogens and slightly reactive with oxidizing agents, reducing agents, acids, alkalis, moisture.

Section 8 - Exposure Controls/Personal Protection

Control parameters

Preparation Date: 13/August/2015
Revision Date: 13/August/2015
Page 3 of 7
Format: GHS Language: English (US)
OSHA HCS 2012

| Exposure Limits/Guidelines | | | | |
|---|---------|---------------------------------------|--|--|
| | Result | ACGIH | NIOSH | OSHA |
| Silica, crystalline - quartz (14808-60-7) | IIIVVAS | 0.025 mg/m3 TWA (respirable fraction) | 0.05 mg/m3 TWA (respirable dust) | Not established |
| Limestone (1317-65-3) | TWAs | Not established | 10 mg/m3 TWA (total dust); 5 mg/m3 TWA (respirable dust) | 15 mg/m3 TWA (total dust); 5 mg/m3 TWA (respirable fraction) |

Exposure Limits Supplemental

•Silica, crystalline - quartz (14808-60-7): Mineral Dusts: ((30)/(%SiO2 + 2) mg/m3 TWA, total dust; (250)/(%SiO2 + 5) mppcf TWA, respirable fraction; (10)/(%SiO2 + 2) mg/m3 TWA, respirable fraction)

•Silica, crystalline - quartz (14808-60-7): TLV Basis - Critical Effects: (lung cancer; pulmonary fibrosis)

Exposure controls

Engineering Measures/Controls Adequate ventilation systems as needed to control concentrations of airborne contaminants below applicable threshold limit values.

Personal Protective Equipment

Pictograms

Respiratory

If airborne dust is present or in case of inadequate ventilation, use appropriate respiratory protection. Use of half/full face air purifying or N95 dust mask is recommended.

Eye/Face Wear safety glasses.

Hands I Wear appropriate gloves.

Skin/Body If prolonged exposure is anticipated, it is recommended for handlers to wear appropriate clothing to prevent skin contact. Use full body suit such as Tyvek or

Handle in accordance with good industrial hygiene and safety practice.

Tychem suit is recommended.

General Industrial Hygiene

Considerations

Environmental Exposure Controls

No data available

Section 9 - Physical and Chemical Properties

Information on Physical and Chemical Properties

| Physical Form | Solid | Appearance/Description | Variable colored granules. |
|-----------------------------------|-------------------|------------------------|--------------------------------|
| Color | Varies | Odor | Varies |
| Odor Threshold | No data available | | |
| General Properties | | - | |
| Boiling Point | No data available | Melting Point | No data available |
| Decomposition Temperature | No data available | рН | Not relevant |

| Environmental | | | |
| Octanol/Water Partition coefficient | No data available | | |

Section 10: Stability and Reactivity

Reactivity

Non-reactive under normal handling and storage conditions.

Chemical stability

Stable

Possibility of hazardous reactions

1 Hazardous polymerization will not occur.

Conditions to avoid

■ Extreme heat, high humidity or moisture. Avoid contact with moisture. If Urea is present, slow hydrolysis may produce acids corrosive to metals.

Incompatible materials

Material may be incompatible with halogens, oxidizing agents, reducing agents, acids, alkalis, moisture, potassium chlorate, potassium nitrate, sodium nitrate, sodium hypochlorite, metal chlorates, strong bases. If Urea is present may be corrosive to mild steel and slightly corrosive to aluminum, zinc, or copper.

Hazardous decomposition products

■ May release ammonia, oxides of sulfur, oxides of nitrogen, and oxides of carbon. Flammable/toxic gases will form at elevated temperatures by thermal decomposition.

Section 11 - Toxicological Information

Information on toxicological effects

| GHS Properties | Classification |
|-------------------------------|---|
| Acute toxicity | OSHA HCS 2012 • Acute Toxicity - Dermal - Classification criteria not met; Acute Toxicity - Inhalation - Classification criteria not met; Acute Toxicity - Oral - Classification criteria not met |
| Aspiration Hazard | OSHA HCS 2012 • Classification criteria not met |
| Carcinogenicity | OSHA HCS 2012 • Carcinogenicity 1A |
| Germ Cell Mutagenicity | OSHA HCS 2012 • Not classified - data lacking |
| Skin corrosion/Irritation | OSHA HCS 2012 • Classification criteria not met |
| Skin sensitization | OSHA HCS 2012 • Classification criteria not met |
| STOT-RE | OSHA HCS 2012 • Classification criteria not met |
| STOT-SE | OSHA HCS 2012 • Classification criteria not met |
| Toxicity for Reproduction | OSHA HCS 2012 • Classification criteria not met |
| Respiratory sensitization | OSHA HCS 2012 • Classification criteria not met |
| Serious eye damage/Irritation | OSHA HCS 2012 • Classification criteria not met |

Preparation Date: 13/August/2015 Revision Date: 13/August/2015 Format: GHS Language: English (US)
OSHA HCS 2012

Potential Health Effects

Inhalation

Acute (Immediate) Exposure to dust may cause mild respiratory irritation. Acute Silicosis can occur with

exposures to very high concentrations of respirable crystalline silica over a very short time period, sometimes as short as a few months. The symptoms of acute silicosis

include progressive shortness of breath, fever, cough and weight loss.

Chronic (Delayed)Repeated or prolonged inhalation of dust may cause respiratory irritation. Repeated and prolonged exposure to crystalline silica containing materials may cause irritation

and/or lung damage silicosis, fibrosis, inflammation, cancer.

Skin

Acute (Immediate) | Exposure to dust may cause mechanical irritation.

Chronic (Delayed) No data available.

Eye

Acute (Immediate) | Exposure to dust may cause mechanical irritation.

Chronic (Delayed) No data available

Ingestion

Acute (Immediate) I Under normal conditions of use, no health effects are expected.

Chronic (Delayed) No data available

Other

Chronic (Delayed) No data available.

Carcinogenic Effects | Crystalline silica (quartz) inhaled from occupational sources is classified as

carcinogenic to humans.

Section 12 - Ecological Information

Toxicity

No data available

Persistence and degradability

No data available

Bioaccumulative potential

■ No data available

Mobility in Soil

■ No data available

Other adverse effects

No studies have been found.

Section 13 - Disposal Considerations

Waste treatment methods

Product waste | Dispose of content and/or container in accordance with local, regional, national, and/or

international regulations.

Packaging waste I Dispose of content and/or container in accordance with local, regional, national, and/or

international regulations.

Section 14 - Transport Information
