All-Season

TURF FOOD

Fertilizer

Provides essential
nutrients lawns
need to be vigorous,
lush, and green.

26·0·3

Covers 5,000 sq. ft. Net Weight: 15 lbs. (6.8 kg)

KEEP OUT OF REACH OF CHILDREN
CAUTION: May cause irritation. On contact
with skin or eyes, flush with plenty of water.

Guaranteed Analysis

Total Nitrogen (N).....	26.00%
26.00% Urea Nitrogen	
Soluble Potash (K ₂ O).....	3.00%
Derived From: Muriate of Potash, Urea.	
Chlorine (Cl), not more than 6.00%	F315

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.htm>

What

This quality fertilizer blend provides the primary plant nutrients needed to encourage vigorous lush, green lawns. Use throughout the growing season for a show-place lawn.

When

Apply this fertilizer every 4 to 6 weeks, or along with other turf care products (such as crabgrass preventer, weed & feed, insect control, etc.) as part of a total lawn care program. Fertilizer application can be tailored to meet the exact nutrient requirements of your lawn, by having your soil tested. Contact your university extension service or local agricultural experiment station for information on soil testing services available in your area.

How

Spread this fertilizer on your lawn at the rate of 3 to 4 pounds per 1000 square feet, or as suggested by soil testing or professional advice. When temperatures exceed 90 degrees, or dry conditions exist, reduce the application rate by one-half to prevent possible burning of the turf. Fertilizer application can be tailored to meet the exact nutrient requirements of your lawn, by having your soil tested. Contact your university extension service or local agricultural experiment station for information on soil testing services available in your area.

Apply on a calm day when the grass is dry, using a properly calibrated spreader. Faster greening will result if the fertilizer is watered in after application. For more uniform spreading and to avoid streaks, cover the area two times, each time applying at half the recommended rate, with the second application perpendicular to the first. Fill the spreader on a driveway or sidewalk so that any spilled material can be swept up and properly spread on the lawn. Do not hand spread.

Spreader Settings

Broadcast Spreader	Drop Spreader	
Agri-Fab	4.0	Agri-Fab 6.0
Ames	4.0	Ames 2.5
Ames Deluxe 2in1	3.0	Ames Deluxe 2 in 1 1.5
Craftsman	4.0	Craftsman 5.5
Earthway	11.5	Earthway 9.5
Plant Mate	8.0	Plant Mate 1.7
Precision GreenLine	3.75	Precision GreenLine 1.5
Precision Red Devil	3.75	Precision Red Devil 1.5
Precision Pro	3.75	Precision Pro 1.5
Scotts Speedy Green	5.75	Scotts Accu Green 6.5
Scotts Easy Green	26.0	Scotts Even Green 7.5
Scotts Basic	5	Taylor 1.7
Scotts Lawn Pro	5	
Scotts Deluxe EdgeGuard	5	
Taylor	8.0	

Note: Spreader settings are approximate and may vary according to the condition of your equipment. Your spreader should be calibrated before use! Shut the spreader off when turning or stopping, to avoid over-application and possible turf damage. Excessive overlap, especially with drop spreaders, will cause over-application and possible turf damage. Clean and lubricate your spreader after use.

Use this formula to calculate the amount of product you need:

_____ Length of Property x _____ Width of Property = _____ Total Square Feet

_____ Total Square Feet - _____ Non-Lawn Areas = _____ Total Square Feet Coverage Needed

KEEP OUT OF REACH OF CHILDREN

CAUTION: Fertilizer may cause skin or eye irritation. Flush contacted area with plenty of water, and get medical attention if irritation persists. If swallowed, call a doctor for treatment advice.

Manufacturer warrants that this product conforms to the ingredient statement on the label, and that the product is reasonably suited for the labeled use when applied according to directions. Buyer and user assumes all risks and liability of use, storage and/or handling of this product not in accordance with the terms of this label.
