

All-Season

TURF FOOD

Fertilizer

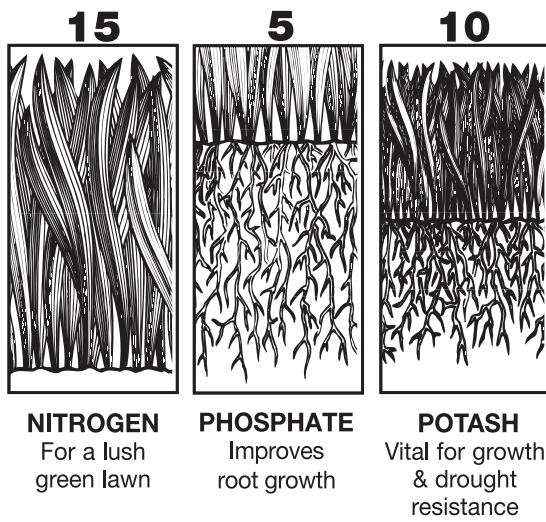

Provides essential
nutrients lawns
need to be vigorous,
lush, and green.

15·5·10

Treats 10,000 sq. ft. Net Wt. 40 lbs. (18.18 kg)

KEEP OUT OF REACH OF CHILDREN
CAUTION: May cause irritation. On contact
with skin or eyes, flush with plenty of water.

Guaranteed Analysis

Total Nitrogen (N)	15.00%
1.96% Ammoniacal Nitrogen	
13.04% Urea Nitrogen	
Available Phosphate (P ₂ O ₅)	5.00%
Soluble Potash (K ₂ O)	10.00%
Derived From: Diammonium Phosphate, Muriate of Potash, Urea.	
Chlorine (Cl), not more than 5.00%	F315

What

Our Product

This quality fertilizer formula provides primary plant nutrients for all types of lawns and ornamental turf. It promotes a lush green color and stronger root systems, and helps you nurture a vigorous lawn that looks great - even in heavy traffic areas.

When

Application Timing

For a show-place lawn throughout the growing season, apply this fertilizer every 4 to 6 weeks, or along with other turf care products (such as crabgrass preventer, weed & feed, insect control, etc.) as part of a total lawn care program.

Most lawn grasses need 1 to 4 pounds of nitrogen per 1000 square feet over the growing season.

Fertilizer application can be tailored to meet the exact nutrient requirements of your lawn, by having your soil tested. Contact your university extension service or local agricultural experiment station for information on soil testing services available in your area.

How

How to Apply

Spread this fertilizer on your lawn at the rate of 3 to 4 pounds per 1000 square feet, or as suggested by soil testing or professional advice. When temperatures exceed 90 degrees, or dry conditions exist, reduce the application rate by one-half to prevent possible burning of the turf.

Apply on a calm day when the grass is dry, using a properly calibrated spreader. Faster greening will result if the fertilizer is watered in after application.

For more uniform spreading and to avoid streaks, cover the area two times, applying at half the recommended rate, with the second application perpendicular to the first. Fill the spreader on a driveway or sidewalk so that any spilled material can be swept up and properly spread on the lawn. Do not hand spread.

Spreader Settings

Spreader Settings to apply at the listed rate (Pounds per 1000 Square Feet)			
Drop Spreaders	4 lbs	Rotary Spreaders	4 lbs
Ames	15	Ames	15
Earthway	15	Earthway	15
Precision Red Devil	8	Precision Red Devil	8
Scotts AccuGreen	3	Cyclone Model SB3000	7
Scotts EvenGreen	8	Scotts EasyGreen	28
Scotts PrecisionGreen	7	Scotts SpeedyGreen	7

Note: Spreader settings are approximate and may vary according to the condition of your equipment. Your spreader should be calibrated before use! Shut the spreader off when turning or stopping, to avoid over-application and possible turf damage. Excessive overlap, especially with drop spreaders, will cause over-application and possible turf damage. Clean and lubricate your spreader after use.

Use this formula to calculate the amount of product you need:

_____ Length of Property x _____ Width of Property = _____ Total Square Feet

_____ Total Square Feet - _____ Non-Lawn Areas = _____ Total Square Feet Coverage Needed

Do not apply near water, storm drains or drainage ditches. Do not apply if heavy rain is expected. Apply this product only to your lawn/garden, sweep any product that lands in the driveway, sidewalk, or street, back onto your lawn/garden.

KEEP OUT OF REACH OF CHILDREN

CAUTION: Fertilizer may cause skin or eye irritation. Flush contacted area with plenty of water, and get medical attention if irritation persists. If swallowed, call a doctor for treatment advice.

Manufacturer warrants that this product conforms to the ingredient statement on the label, and that the product is reasonably suited for the labeled use when applied according to directions. Buyer and user assumes all risks and liability of use, storage and/or handling of this product not in accordance with the terms of this label. Manufacturer makes no other warranty, express or implied, and shall not be liable for indirect or consequential damages.
